MILITARY POSTS AND STATIONS

(In addition to those in scheme)

Units	Address
Bolling Field.....	Washington, D. C.
Camp Simms.....	Washington, D. C.
Camp Detrick.....	Frederick, Md.
Phillips Field.....	Aberdeen Proving Ground, Md.

Refer to back portion of U. S. Postal Guide for complete list of military units in other States and U. S. Possessions, "U. S. National Cemeteries," "State Homes for Soldiers," and "Veterans' Administration installations, with correct post office addresses."

NOTES

1. Junctions are prefixed "*" and will have the branches, necessary stations, and "dis" offices in the same county indented below, unless these offices are supplied by independent service.

2. The suffix (n.o.) indicates that the place named is not a post office.

3. The prefix "△" indicates discontinued offices and such offices will not be erased until directed in scheme corrections.

4. The suffix (c.h.) denotes the county seat.

5. The absence of train or trip numbers in the supply column indicates supply by all trains or trips with the same frequency as the RPO or HPO service. If an office is not supplied by all trains or trips with such frequency, the trains or trips supplying it are shown.

6. Explanation of arbitrary symbols and frequency letters in the supply column will be found in the division schedule of mail routes.

7. In addition to the abbreviations and symbols shown in the division schedule of mail routes, the following abbreviations are used in this scheme:

Air Mail.....	AM
Highway Post Office.....	HPO
Mail Messenger.....	MM
Railroad.....	RR
Railroad Station.....	RR Sta
Railway Post Office.....	RPO
Rural Delivery.....	RD
Terminal.....	Term
Transfer Office.....	TO

8. The time notes frequency is daily except Sunday unless otherwise stated, and when two or more time notes are shown for an office, the note indicating the earliest departure will afford the earliest arrival unless an arrival time note is also shown.

RPO AND HPO SEPARATIONS

EXPLANATORY NOTES

1. Mails distributed by general scheme must be made up at all times, in both letters and papers, as indicated in the separation list below, by lines and offices making direct connection at junction points indicated.

2. Lines and offices not having direct connection will make up as directed or mass on connecting line if quantity is insufficient.

3. Offices prefixed "M" will be made up direct, in both letter and papers, if quantity warrants; otherwise, mass on connecting line. If the line making the direct connection has less than 5 pieces for such offices, they should be tied in one package, where more than one make-up is shown, and labeled "holdouts."

4. The dividing point includes that particular office and connections and "dis" if any, unless otherwise specified.

5. When less than 10 pieces of mail are received in a separation for any of the separations beyond, clerks will not check as errors the pieces so received.
