(EXPLANATORY NOTES FOR USE OF SCHEME)

(1) Letters suffixed to the name of the county will indicate the case examination section when the state is composed of more than one examination. The number prefixing the county is for convenience.

(2) Junctions are prefixed “*” and may have the branches, stations and “dis” offices in the same county indented below, unless these offices are supplied by independent service. In the latter instance they will be shown in a separate brace.

(3) An office prefixed “#” indicates that all branches, stations and offices indented below receive their only supply through that office.

(4) The suffix (n.o.) indicates that the place named is not a post office.

(5) The prefix “△” indicates discontinued offices and such offices will not be erased until directed in scheme changes.

(6) The suffix (c.h.) denotes the county seat.

(7) The absence of train or trip number in the supply column indicates supply by all trains or trips of RPO, HPO, CP or SR service as shown in schedules. If an office is not supplied by all trains or trips, the exceptions or trains and trips supplying it will be shown.

(8) Explanation of arbitrary symbols and frequency letters in a supply column will be found in the Regional Schedule of Mail Routes.

(9) The following arbitrary signs and abbreviations are used in this scheme, in addition to those explained above.

Abbreviations

Airmail	AM
Airport Mail Facility	AMF
Branch	Br
Bus Station	BS
Closed Pouch	CP
Highway Post Office.....	HPO
Mail Messenger	MM
Postal Transportation Service.....	PTS
Railroad	RR
Railroad Station	RR Sta
Railway Post Office.....	RPO
Rural Delivery	RD
Rural Station	R. Sta
Star Route	SR

Station	Sta
Terminal	Term
Transfer Office	TO
Truck Terminal	TT
Vehicle Service	VS

(10) When two or more time notes are shown for an office, the note indicating the earliest departure will afford the earliest arrival unless an arrival time note is also shown.

(11) Mail for offices schemed only to a star route or closed pouch trains must be dispatched to an appropriate distributing unit. This may be Post Office, RPO, HPO, Term or TO.

(12) The RPO, HPO or other distributing unit serving the office on the SR or CP through which connection will be made will distribute mail labeled to the SR or CP unless instructed otherwise by PTS officials.

(13) Notes shown in small type following an RPO, HPO, CP or star route supply indicate the points between which the office is located. Offices used are principal supplies.

AM	Airmail
AMF	Airport Mail Facility
Br	Branch
BS	Bus Station
CP	Closed Pouch
HPO	Highway Post Office
MM	Mail Messenger
PTS	Postal Transportation Service
RR	Railroad

EXPLANATORY NOTES

(1) Mails distributed by general scheme must be made up at all times, as indicated in the separation list below, by lines and offices making direct connection at points indicated.

(2) Lines and offices not having direct connection will make up as directed, or mass on connecting line if quantity is insufficient.

(3) Offices prefixed "M" will be made up direct, if quantity warrants; otherwise mass on connecting line. If the line making the direct connection has less than five pieces for such offices, they should be tied in one package where more than one make up is shown, and labeled "holdouts."

(4) The dividing point includes that particular office, connection and "dis" if any, unless otherwise specified.

(5) When the separations or the connection points for all trains are not the same, it may be necessary to list the trains by number.

(6) When less than 10 pieces of mail are received in a separation for any of the separations beyond, clerks will not check as errors the pieces so received.
