SEC. 9. MAILING LIST— DUPLICATIONS

In connection with the reorganization and consolidation of offices in the Atlanta Region, effective May 3, 1958, it is probable that there will be some duplication of mailing General Orders and Schedule Changes. We have endeavored to hold such duplications to a minimum, therefore, any installation or individual receiving General Orders and Schedule Changes in excess of needs, please return them to the Distribution and Traffic Manager, Distribution Unit, 5 Forsyth Street, N.W., Atlanta, Georgia with explanation.

MILITARY POSTS AND STATIONS

Complete list military post and stations

Post office supply

Atlanta General Depot.....	Atlanta. <i>Forest Park</i>
Augusta Arsenal.....	Augusta.
Lawson Air Force Base.....	Fort Benning.
Marietta Air Force Base.....	Marietta.
Turner Air Force Base.....	Albany.

Refer to the back portion of United States Postal Guide for complete list of military units in other States and United State possessions, also United States National Cemeteries, State Homes for Soldiers, and Veterans' Administration Installations, with correct post-office addresses.

NOTES

1. Letters suffixed to the name of the country will indicate the case examination section, when State is composed of more than one examination.

2. Junctions are prefixed "*" and will have the branches, necessary stations, and "dis" offices in the same country indented below, unless these offices are supplied by independent service.

3. An office prefixed "#" indicates that all branches, necessary stations and offices in the same county indented below receive their only supply through that office.

4. The suffix (n. o.) indicates that the place named is not a post office.

5. The prefix "△" indicates discontinued offices and such offices will not be erased until directed in scheme corrections.

6. The suffix (c. h.) denotes the county seat.

7. The absence of train or trip numbers in the supply column indicates supply by all trains or trips of the RPO or HPO service. If an office is not supplied by all trains or trips, the trains or trips supplying it, or the exceptions, will be shown, if necessary to prevent delay to the mail. Frequency of supply made by a SR trip or CP train will be found in tables in the Division Schedule of Mail Routes, unless shown as a note.

8. Explanation of arbitrary symbols and frequency letters in the supply column will be found in the division schedule of mail routes.

9. The following abbreviations are used in this scheme:

Airmail.....	AM
Closed pouch.....	CP
Highway Post Office.....	HPO
Mail Messenger.....	MM
Railroad.....	RR
Railroad Station.....	RR Sta
Railway Post Office.....	RPO
Rural Delivery.....	RD
Star Route.....	SR
Terminal.....	Term
Transfer Office.....	TO

10. The time notes frequency is daily except Sunday unless otherwise stated. When two or more time notes are shown for an office, the note indicating the earliest departure will afford the earliest arrival unless an arrival time note is also shown.

11. Office or offices schemed only to a star route must be dispatched to an RPO or HPO or another star route having connection with the star route at termini offices or intermediate offices.

12. Supplies shown following RPO trains or HPO trips are also supplies via CP trains or SR trips as shown in the schedule of mail routes.

13. The RPO or HPO serving the office on the SR through which connection will be made will distribute mail labeled to the SR unless instructed otherwise by PTS officials.

14. Notes shown in 6-point type following a star route supply is the points between or the name of the actual star route on which the office is located.

AD	Admission
CP	Chief of Police
HPO	Highway Post Office
MM	Mail Messenger
RR	Railroad
RR sta	Railroad Station
RPO	Railway Post Office
RD	Rural Delivery

RPO AND HPO SEPARATIONS

EXPLANATORY NOTES

1. Mails distributed by general scheme must be made up at all times, as indicated in the separation list below, by lines and offices making direct connection at junction points indicated.

2. Lines and offices not having direct connection will make up as directed or mass on connecting line if quantity is insufficient.

3. Offices prefixed "M" will be made up direct, if quantity warrants; otherwise mass on connecting line. If the line making the direct connection has less than five pieces for such offices, they should be tied in one package, where more than one make-up is shown, and labeled "Holdouts."

4. The dividing point includes that particular office connections and "Dis" if any, unless otherwise specified.

5. When less than 10 pieces of mail are received in a separation for any of the separations beyond, clerks will not check as errors the pieces so received.
