GENERAL SCHEME OF OHIO

NOTES

1. Letters suffixed to the name of the county will indicate the case examination section, when the state is composed of more than one examination.

2. Junctions are prefixed "*" and will have the branches, stations, and "dis" offices in the same county indented below, unless these offices are supplied by independent service.

3. An office prefixed "#" indicates that all branches, stations, and offices in the same county indented below receive their only supply through that office.

4. The suffix (n. o.) indicates that the place named is not a post office.

5. The prefix "Δ" indicates discontinued offices and such offices will not be erased until directed in scheme corrections.

6. The suffix (c. h.) denotes the county seat.

7. The absence of train or trip numbers in the supply column indicates supply by all trains or trips of the RPO or HPO service. If an office is not supplied by all trains or trips, the trains or trips supplying it, or the exceptions, will be shown. Frequency of supply made by a SR trip or CP train will be found in tables in the Regional Schedule of Mail Routes, unless shown as a note.

8. Explanation of arbitrary symbols and frequency letters in a supply column will be found in the regional schedule of mail routes.

9. The following abbreviations are used in this scheme:

Air Mail.....	AM
Closed Pouch.....	CP
Highway Post Office.....	HPO
Mail Messenger.....	MM
Railroad.....	RR
Railroad Station.....	RR Sta
Railway Post Office.....	RPO
Rural Delivery.....	RD
Star Route.....	SR
Terminal.....	Term
Transfer Office.....	TO

10. The time notes frequency is daily except Sunday and holidays unless otherwise stated and when two or more time notes are shown for an office, the note indicating the earliest departure will afford the earliest arrival unless an arrival time note is also shown.

(17)

11. Offices schemed only to a star route must be dispatched to an RPO or HPO or another star route having connection with the star route at termini offices or intermediate offices.

12. Supplies shown following RPO trains or HPO trips are also supplies via CP trains or SR trips as shown in the schedule of mail routes.

13. The RPO or HPO serving the office on the SR through which connection will be made will distribute mail labeled to the SR unless instructed otherwise by PTS officials.

14. Notes shown in small type following a star route supply is the points between or the name of the actual star route on which the office is located.

1	1. The prefix "A" indicates discontinued offices and mail offices will not be carried until directed in scheme corrections.
2	2. The prefix "B" indicates the country seat.
3	3. The number of train or trip numbers in the supply column indicates supply by all trains or trips of the RPO or HPO service. If an office is not supplied by all trains or trips the train or trip supplying it or the exception will be shown. Frequency of supply made by a SR trip or CP train will be found in table in the Regional Schedule of Mail Routes unless shown as a note.
4	4. Explanation of arbitrary symbols and frequency letters in a supply column will be found in the regional schedule of mail routes.
5	5. The following abbreviations are used in this schedule:
6	6. Air Mail
7	7. Closed Route
8	8. Highway Post Office
9	9. Mail Message
10	10. Railroad
11	11. Railroad Station
12	12. Railway Post Office
13	13. Rural Delivery
14	14. Star Route
15	15. Terminus
16	16. Transfer Office
17	17. The time notes frequently is daily except Sunday and holidays unless otherwise stated and when two or more times are shown for an office the note indicating the earliest departure will afford the earliest arrival unless an arrival time note is also shown.

RAILWAY POST OFFICE SEPARATIONS

EXPLANATORY NOTES

1. Mails distributed by General Scheme must be made up at all times, as indicated in the separation list below, by lines and offices making direct connection at junction points indicated.

2. Lines and offices not having direct connection will make up as directed or mass on connecting line if quantity is insufficient.

3. Offices prefixed "M" will be made up direct, if quantity warrants; otherwise mass on connecting line. If the line making the direct connection has less than 5 pieces for such offices, they should be tied in 1 package, where more than 1 make-up is shown, and labeled "Holdouts."

4. The dividing point includes that particular office and connections and "dis" if any, unless otherwise specified.

5. When less than 10 pieces of mail are received in a separation for any of the separations beyond, clerks will not check as errors the pieces so received.
